VALUABLE

SCHOOL AND CLASSICAL BOOKS,

published by

CUMMINGS AND HILLIARD,

at the

BOSTON BOOKSTORE, NO. 1, CORNHILL.

CUMMINGS' ANCIENT AND MODERN GEOGRAPHY, with an Atlas of *eight* modern and *four* ancient maps. This work was first published in 1813, and the 8th edition is now in press, making in all 116 thousand copies. It is very generally adopted in all parts of the United States.

CUMMINGS' FIRST LESSONS IN GEOGRAPHY AND ASTRONOMY, with 7 maps, and a plate of the Solar System, for the use of children from 6 to 8 years of age.

ANCIENT AND MODERN ATLAS, containing, *The World, Europe, Asia, Africa, North America, United States, South America*, and *The British Islands*, which are Modern.—*The World, as known to the Ancients, The Roman Empire, Gaul, Spain, Italy, Greece, Africa, Egypt, Asia Minor, the places recorded in the five books of Moses, Palestine or the Holy Land, Syria & Assyria, the Persian Empire.*

A NEW PRONOUNCING SPELLING BOOK, in which the sound of every syllable is simply and accurately conveyed according to Walker's pronunciation, and adapted to every capacity. By J. A. Cummings.

☞ This *Spelling Book* contains every word of common use in our language, that is difficult either to spell or pronounce.

The *pronunciation* is strictly conformed to that of *Walker's Critical Pronouncing Dictionary*, and is so exactly and peculiarly denoted, that no one, who knows the powers of the letters, can mistake the true pronunciation.

By the plan here adopted, of placing over such letters, as lose their sounds, those letters with their appropriate marks, whose sounds they receive, all the *benefit* of Walker's method of spelling words wrong, for the sake of correct pronunciation, is *realized*; and the *danger* of leading children to incorrect spelling, by habituating them to that which is erroneous, for the sake of correct pronunciation, is avoided.

CUMMINGS' QUESTIONS ON THE NEW TESTAMENT, for Sabbath exercises in schools and academies, with four maps of the countries through which our Saviour and his apostles travelled.

THE LATIN TUTOR, or an introduction to the making of Latin; containing a copious exemplification of the rules of the Latin syntax from the best authorities. Accommodated to Adam's Grammar, and Smith's N. H. L. Grammar.

ELEMENTS of GEOGRAPHY, ANCIENT and MODERN, with an ATLAS. By J. E. Worcester.

Geography, 324 pages 12mo. Price, 87½
Modern Atlas, 8 maps, viz. of the World, North America, United States, South America, Europe, Great Britain & Ireland, Asia, and Africa—*coloured* ,87½
Ancient Atlas, 5 maps, viz. of the Roman Empire, Italy, Greece, Asia Minor, and Palestine or Holy Land—*coloured* ,87½
Ancient and Modern Atlas, 13 maps—*coloured* 1,75

[This system embraces a very comprehensive view of geography, and is accommodated to the present state of the world. It is adapted to the use of academies and higher schools, and to the use of pupils preparing for college. The maps are newly and neatly engraved; the modern ones adapted to the existing state of geography; and the names on the ancient maps are *translated into English*. —This geography has been adopted as the one to be made use of in the examination of candidates for admission into the University in Cambridge.]

EPITOME of MODERN GEOGRAPHY, with MAPS. By J. E. Worcester.

Geography, 156 pages, Price ,44 } Both ,87
Maps, " ,44 }

[The design of the *Epitome* is to furnish, for the use of *common schools*, a treatise of geography, at once concise and comprehensive. It is neatly executed, and the price is put so low as to place it within the reach of all classes of the community. The maps which accompany the Epitome, viz. a map of the World, of Europe, and of the United States, are such as are most essential to the American pupil.]

DELECTUS SENTENTIARUM GRÆCARUM, for the use of beginners, with Notes and a Lexicon, by R. Valpy.

This work is designed to render the Introduction to the Greek languages as easy as possible, and to assist beginners: and it is unquestionably the best book of the kind hitherto published.
